# Axygen™ Heat Sealing Film Aluminium

**LOCALLY STOCKED**

## Protection against evaporation during PCR and Storage

**Only \$100** (ex GST)  
for 100

### HS-200 Peelable & HS-300 Pierceable Aluminum Heat Sealing Film

Axygen® microplate sealing films are designed for applications ranging from PCR and Real-Time PCR to ELISA and cell culture. Axygen's sealing films are the easiest and most cost-effective method for sealing plates. They can be used in wide temperature ranges, making them suitable for many applications.

Compatible to use with the Axygen PlateMax Semi-Automated Plate Sealer (HS-1230)

This offer is valid whilst current stocks last
